New Orleans Aviation Board's management is responsible for its assertion. Our responsibility is to express an opinion on management's assertion about New Orleans Aviation Board's compliance based upon our examination.

Our examination was conducted in accordance with the attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on New Orleans Aviation Board's compliance with specified requirements.

In our opinion, management's assertion that New Orleans Aviation Board has complied with all policies and procedures regarding payment of Allowable Costs and compliance with PFC Law as defined by the Indenture, for the quarter ended December 31, 2016, is fairly stated, in all material respects.
